Your Ref.----

Dear Bro.

9th January, 1935

Shedmen. Stourbridge

Yours of the 3rd instant. You do not seem to have told all the tale about this. For instance, why did not the L.D.C. agree to Andrews plea if ill health as a reason for not accepting the post of Stores Issuer?

Again, after declining to accept Andrews' plea did you intend to force him to take the post? If not, why did you not arrange for the next senior to take the post pending a settlement being arrived at in regard to Andrews?

And again, I cannot understand why you can say that the next senior should have been promoted when he declined the post when it was offered to him. Why did these men desire Andrews to take the Stores Issuers job to such an extent as to refuse promotion?

If you can throw a little light on these matters we may be able to appreciate better the need for a variation of the agreement.

Yours fraternally,

B H Jenkins
